

Policy on Quarantine for Rabies Areas Announced

A policy statement setting forth conditions under which a rabies quarantine on dogs will be established in 26 California counties declared "rabies endemic areas" was issued yesterday to local health officers in those areas by Dr. Mal-

colm H. Merrill, State Director of Public Health. The statement was issued following a conference with the Committee on Administrative Practices of the California Conference of Local Health Officers in Stockton yesterday in which problems relating to the rabies control program were discussed.

At the Stockton meeting it was brought out that if the lo-

cal health officer in rabies endemic area does not declare a quarantine or take other acceptable action, the State Department of Public Health will declare a quarantine after it is convinced all avenues for securing acceptable action have been exhausted.

Dr. Merrill in his statement pointed out that a rabies endemic area, or a portion of that area will not be required to establish a quarantine if it now has or is in process of adopting an adequate program for the control of rabies as permitted by the State Health and Safety Code.

The State Department of Public Health will consider as an "adequate" substitute for quarantine a city or county government jurisdiction which has adopted and enforces an ordinance which provides for registration of all dogs, antirabies vaccination of all dogs allowed to run at large, maintenance of a pound and pick-up system.

If rabies continue to occur in such areas six months after adoption of an ordinance, the

Department will investigate and may require more strict enforcement or establishment of a quarantine.

Los Angeles County is one of the endemic counties.

ISLAND AREA

The various islands of the world contain about four million square miles of land area, and there are various estimates about how many of the islands are permanently inhabited.

New Wine Promotion Launched

Eleven Cellars, the wine that won more prizes for flavor than any wine at its price, will soon be available to everyone in this area. This wine has actually won the most awards in its price class, three years in a row, at the California State Fair and Los Angeles County Fair. These awards were in the Special Division where all samples judged are taken from store shelves.

Eleven Cellars has been "tested" in a few stores in this area. As a result, a big drive is now on to make Eleven Cellars Torrance's number one wine. The Torrance HERALD has been selected to carry the story which is built around the idea "If I won \$64,000—I'd still go for Eleven Cellars at 63c."

Specialists Unite
Eleven Cellars wines are made by 11 wineries, located throughout California's famous wine districts. Each of these wineries specializes in the kind of wines that are made best in the region. By joining forces, these 11 wineries have been able to compete with the large commercial wineries.

These wineries, that make Eleven Cellar wines, are all grower-owned. In all, about 1000 grower-owners are involved in producing these wines.

Wine Fair Honors
Eleven Cellars wines are made in all the popular types and bottle sizes. At this year's California Fairs, 10 types of Eleven Cellars received awards for excellence. They were Eleven Cellars, California Port, Muscatel, Sherry, Tokay, Sauterne, Burgundy, Claret, Chablis, Zinfandel, and Vin Rose.

Representatives for Eleven Cellars are contacting local grocers now—suggesting that they offer this wine to their customers. In many stores, the Eleven Cellars wine will be found in special displays. Some of the grocers carrying Eleven Cellars will be advertising it in their weekly ads in the Torrance HERALD.

THE NEW OLDS... Accent is on grace and beauty in the 1956 Oldsmobile "98" Deluxe Holiday coupe with new Starfire styling and a completely new power train. Front end treatment is brand new, incorporating a new airfoil grille, restyled bumper and new hood contour. The Deluxe Holiday coupe is powered by the sensational Rocket T-350 engine which delivers 240 horsepower. Featured also is the Jetaway Hydra-Matic transmission.

A COOL ATMOSPHERE... With a cup of warm tea, Pat Rogers tries to change the cool atmosphere Von Hershey shows toward friendly Dr. Gribble, portrayed by Jim Wilson. The scene being staged here is one in "Love From a Stranger" which will give its closing performances tomorrow and Saturday nights at Redondo High School auditorium. It has been staged by Hampton Players, local theater group.

Shell Chemical Reports Smog Easing Measures

Steps which the Shell Oil Co. and its affiliates have taken in the fight against smog were outlined in a report submitted to G. Smith Griswold, director of the Air Pollution Control District, this week by the firm's vice president, S. F. Bowlby.

PALICAS BACK ON CHANDLER LINEUP

Erv, Nick and Bo Palica, the baseball playing brothers from Lomita, were in uniform Sunday for the Chandler Sand and Gravel mine as the Sandmen topped the Rosabell Plumbers from Highland Park, 6-2, in a Winter League battle.

Erv, who is under contract to the American League's Baltimore Orioles, combined with Stan Willis to hurl the win for the Sandmen.

The winners tallied thrice in the top of the sixth inning off losing hurler Rex Jones to go ahead for good.

The Chandler team meets Butler Buick, Sunday, in a 1:30 p.m. encounter in Hawthorne.

per cent of the company's Wilmington-Dominguez refineries' 1335 employees were participating in the formation of car pools. Employees in the various plants are advised daily on the smog forecasts through the firm's public address system.

Bowlby reported further on the company's plan for cooperating with smog control officials in the event of a smog alert.

1. That employees participate in car pools.
2. That use of personal and company vehicles be restricted.
3. That home trash burning be restricted.

Bowlby reported that car pool clearing desks had been set up at each Shell factory, including the Torrance Chemical plant.

As an example of our employee's cooperation with the plan, Bowlby reported that 89

per cent of the company's Wilmington-Dominguez refineries' 1335 employees were participating in the formation of car pools. Employees in the various plants are advised daily on the smog forecasts through the firm's public address system.

Bowlby reported further on the company's plan for cooperating with smog control officials in the event of a smog alert.

1. Stop immediately.
2. Give his name, address, registration number of the vehicle or occupants of the vehicle collided with.
3. Exhibit his driver's license to the above persons, upon request, or to police officers at the scene.
4. Render reasonable assistance to injured persons, including the carrying of, the making arrangements for the carrying of such persons to a place where medical treatment can be given.
5. In those cases where no officers are present at the scene of a fatal or injury accident, make a report within 24 hours to local police department or State Highway Patrol office.

Police Tell What to Do In Accident

The license to drive a motor vehicle, legally held to be a privilege and not a right, imposes upon the holder certain responsibilities.

One group of these requirements sets forth what a driver must do when involved in a traffic accident. The Los Angeles Police Department emphasizes the need for all drivers to become familiar with these Vehicle Code regulations and lists them as follows.

1. Stop immediately.
2. Give his name, address, registration number of the vehicle or occupants of the vehicle collided with.
3. Exhibit his driver's license to the above persons, upon request, or to police officers at the scene.
4. Render reasonable assistance to injured persons, including the carrying of, the making arrangements for the carrying of such persons to a place where medical treatment can be given.
5. In those cases where no officers are present at the scene of a fatal or injury accident, make a report within 24 hours to local police department or State Highway Patrol office.

Failure to comply with any of the above requirements may result in a charge of hit and run driving.

Infant Cramer

Final arrangements for the infant daughter of Mr. and Mrs. Donald Cramer, of 20504 S. Harvard St., are pending at Halverson-Leavell Mortuary. The little girl died Tuesday at Torrance Memorial Hospital.

Are you watching for dawn?

To those who live and look for something better, this message is vital. For it offers a promise, a promise of help, regardless of present circumstances.

In all manner of human need, this promise has been put to the test by countless thousands and has not failed them. Through honest study of

Science and Health with Key to the Scriptures

By Mary Baker Eddy
the Christian Science textbook, they have learned how to avail themselves of the great Bible promises of help and healing, now made plain.

As a result, a new day has dawned for them, a new way of living—full and free. This same light of understanding can be yours, in the same way, regardless of present conditions, through thoughtful and devoted study of this great book.
